Project Demo Planning

Date	15 July 2026
Team ID	SWTID-2026-8787
Project Name	Credit card Approval Prediction
Maximum Marks	1 Mark

Project Demo Planning:

A well-structured demo plan ensures that the team presents the project effectively, covering all key aspects in a clear and organized manner. This document outlines the plan for demonstrating the project, including the flow of the demo, key features to highlight, and responsibilities of each team member.

Step	Activity	Notes
1	**Introduction & Problem Statement**	Introduce the project, explain the need for automating credit card approval, objectives, and expected benefits.

2	**Solution Overview**	Explain the dataset, preprocessing, Random Forest model, Flask application architecture, and overall workflow.

S.No	Demo Section	Description	Duration (mins)	Responsible Member
1	Project Introduction	Introduce the project, problem statement, objectives, and overall workflow.	2	Vani Sridevi Karamcheti
2	Dataset & Model Development	Explain the dataset, preprocessing, feature engineering, Random Forest model, and evaluation metrics.	4	Vajarapu vinay Kumar
3	Application Demonstration	Demonstrate the Flask application by entering applicant details and showing approval/rejection predictions.	5	Yenumula Sindhu Priya
4	Project Architecture	Explain the system architecture, DFD, technology stack, folder structure, and application flow.	3	Raavi Anuhya
5	Results & Performance	Present model accuracy, confusion matrix, ROC-AUC score, feature importance, and testing results.	3	Vani Sridevi Karamcheti
6	Conclusion & Q&A	Summarize the project, discuss future enhancements, and answer questions from the evaluators.	3	All Team Members

Flow Summary: Summary:

3	**Live Feature Demonstration**	Demonstrate the application by entering applicant details and showing the prediction result (Approved/Rejected), along with key features.
4	**Q&A Session**	Answer questions related to the model, evaluation metrics, implementation, deployment, and future enhancements.
